CIRCADIAN FRIENDLY

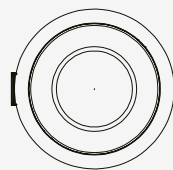

natural healthy light

SPECIFICATIONS

RAY Residence; Tilt-able Recessed Flow with interchangeable housing, 30° Clicktilt technology & rotolock position fixing.

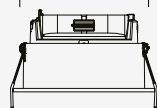

Part of our **Residence** range, the **Flow Recessed Housing (Tilt)** is the perfect way to fit a recessed light fitting once plastering is completed. The bezel on our Flow products provide a straight, cutting edge distribution of light, giving a '**modern**' feel to the space. All Residence products are interchangeable with rotolock position fixing. The added benefit of the Flow Tilt is 30° tilt technology, meaning that the beam of light can be angled to suit your space.
