## SPECIFICATIONS

Part of our **Residence** range, the **Halo Recessed Housing (Tilt)** is the perfect way to fit a recessed light fitting, before plastering is completed. The bezel on our Halo products provide a slightly curved edge for the distribution of light, giving a more '**contemporary**' feel to the space. All Residence products are interchangeable with rotolock position fixing. The added benefit of the Halo Tilt is 30° tilt technology, meaning that the beam of light can be angled to suit your space.
